AEROSOL PAINT

Product Features
This product has strong covering power, good adhesion and excellent scratch resistance. Nice touch feel, high brightness, smoothness and gloss.

Scope of application
Widely applied for painting on surface treated metal, wood, plastic, glass and ABS plastic etc.

CARBURATOR CLEANER

This product can effectively remove carbon deposition, oil sludge, paint films and other sediment. It keeps the carburetor in good condition, it also increases combustion efficiency to save fuel cost and is harmless to sensitive device.

ANTI-RUST LUBRICANT

This product has anti-rust and anti-corrosion performance. It is widely applied for mechanic lubrication and noise elimination, with superior effect of penetrating and derusting, can loosen the rusted screw rapidly. It is suitable for corrosion resistance of precise parts, electrical contact, steel parts and highly sensitive components, it can eliminate squeaks of door hinges, iron gate, moto vehicle components and chairs etc.

TYRE INFLATOR&SEALER

This product adopts special TICH foaming technology, it is refined with imported natural poly-meric materials and special additives. It is widely applied for repairing all kinds of rubber tyres, such as bicycle, motorcycle and passengers, specially effective for 1-6mm puncture. One step procedure of inflating and repairing within few seconds, carry-on essentials for all drivers.

PITCH CLEANER

This product can rapidly penetrate, dissolve, and remove the asphalt, dirt, oil from the surfaces of automobile, motorcycle, alloy wheel frame; Excellent decontamination, cleaning and glazing effects, keeping the surface bright and shiny.

DASHBOARD WAX SPRAY

This product can effectively protect the artificial leather, plastic and rubber products from the influence of UV, high temperature and ozone while cleaning. It can prevent the object from fading, aging, cracking and wrinkling etc. It can increase the gloss of surface and beautify the natural color. It has anti-static function and reduce dust accumulation.

RUBBER CLEANER

This product used for removing dirt, debris and mold lubricants from the repair area prior to buffing. It can soften the rubber of the tyre surface, which make the buffing process more rapidly and easily.

STARTING FLUID

This product can help the engine start rapidly and smoothly in severe weather (Cold or damp weather). Easy to use, no knockings and damage to engine, and prevent excessive damage to battery and ignition switch. Widely applied for various of gasoline and diesel engines.

ZHUORUI TECHNOLOGY
Tyre Repair & Auto Care One Stop Solution Provider

An ISO 9001 Quality Management System Certified Company
ISO 14001 Environment Mangement system

Manufacturer: Loudi City Zhuorui Technology Co., Ltd
Address: No.38 Qunle Street, Economical & Technological Zone, Loudi City, Hunan Province, China.
Tel: 0738-8631888 8631222 <http://zhuorui888888.en.alibaba.com/>

ABOUT US

Loudi City Zhuorui Technology Co.,Ltd is an ISO certified company, is engaged in R&D,manufacturing and marketing of tire repair&auto care products, with head office located in economic&technological developement zone in Loudi City of Hunan Province.

Now our main products include tire patch,repair chemicals, aerosol paint,wheel balance weights,tire valves and auto care&beauty products etc.We are committed to become a professional manufacturer providing one stop solution of tire repair & auto care.

We have advanced production lines and strict quality control system, from the raw material to the finished product, production is closely monitored at every stage to ensure all of our finished products meet or exceed rigorous quality standards,coming out on top in competitive products. We are proud of large market share and good reputation in domestic market, also we are confident to win approval and trust from overseas customers.

We are looking forward to establish mutual benefit relationship with distributors/wholesalers all over the world, to deliver our high quality& competitive products to our customers.

COLD PATCH SEREIS

RK Cold Patch(Red Color)

The strength of patch is 2 times as much as the tube,unique design prevents it from falling off. Premium red base gum and aluminum foil backing. Mainly applied for natural&synthetic rubber tube repair for bicycle and motorcycle. Select the correct type of tube patch according to the injury size, the patch size must be at least 2 times as much as the injury size. After repair, the tyre can return into service safely even in severe conditions and need not worry about disintegrating.

| Item No. | Product Name | Dimension (mm) | Inner Packing | Outer Packing |
|----------|-----------------|----------------|---------------|---------------|
| M48 | Oval tube patch | 24×35 | 48 | 250 |
| L24 | Oval tube patch | 32×52 | 24 | 250 |
| XL12 | Oval tube patch | 45×75 | 12 | 250 |

RK Cold Patch(Green Color)

Designed for chemical vulcanization(cold patch), premium green vulcanizing gum, aluminum foil backing. This patch is strengthened by special formula, can be used for both tube and tyre repair for bicycle and motorcycle. Select the correct type according to the injury size when used for tube repair, for tyre repair, the puncture hole size must be less than 8mm.

Gasket Maker Sealant

High and low temperature resistant from -60°C and 345°C. Strongly adhesive, long-lasting elasticity, solidified at room temperature, high filling capacity, resistant against fuels, oils, water, freeze etc. Easy to handle, no drops. Because of its thixotropy and stagnation, it can be the substitution for various sealing gasket, machinery using this product are easily dismantled under repair.

Epoxy Adhesive AB glue

This product is developed and produced by latest scientific formula, it is of excellent adhesive property and wide suitability for different materials. It is colorless, transparent and of low toxicity. At room temperature, it can rapidly solidify in 5 minutes and is very easy to use. It can bond various metal materials and plastics, leather, pottery and porcelain, glass, jewellery and wood, etc. After its solidifying, it has a fine performance of waterproof, oilproof and chemicals resistance, it also has the characteristics of good insulation, low compression and low shrinkage.

TYRE MAINTENANCE SUPPLIES

Tyre Valve

Product Features:

- Ozone resistance
- Natural rubber
- Cold&heat proof
- Explosion-proof

- Anti-aging
- Pure copper
- Buckling prevention
- High tightness
- Wear resistant & tensile resistance

| Product Name | Inner Packing | Outer Packing |

| Motorcycle tyre valve PRV70(Midium Size) | 100pcs/bag | 20Bags/Ctn |
| Motorcycle tyre valve PRV70(Small Size) | 100pcs/bag | 20Bags/Ctn |
| Motorcycle tyre valve PRV70(Extra Small Size) | 100pcs/bag | 20Bags/Ctn |

Synthetic Brake Fluid

This product can adjust to high temperature in braking systems, low evaporation. It provides protection for metals used in the braking system, such as cast iron, aluminum steel, copper brass etc. Good low temperature starting performance, it is particularly evident in severe cold regions it is non-corroding to all kinds of rubber. Severe swelling and deformation of the seal cup seldom take place after use of this product. Sediment free after long period use.

Tyre Sealant (Anti-freeze)

This product made of organic polymer materials, which is neutral and of no corrosion to metal or rubber, making it safe for tires and rims. It can instantly and repeatedly repair tread area punctures up to 1/4", can stop up to 200 leakages. Anti-freeze performance, it remains effective under severe cold temperature -30°C. It is mainly applied for tubeless tyre of motorcycle.

Super gear oil

Suitable adhesive property
Extreme pressure & anti-wear protection
Good demulsibility
Good anti-foam property
Excellent corrosion&rust proof.

Tyre Sealant

This product made of organic polymer materials, which is neutral and of no corrosion to metal or rubber, making it safe for tires and rims. It can instantly and repeatedly repair tread area punctures up to 1/4", can stop up to 200 leakages. It is mainly applied for tubeless tyre of motorcycle.

Electrical Tape

Featured with good insulation, adhesive property and elasty, water proof, acid& alkali resistance. Thickness 0.005mm, is the most suitable tape for maintenance of vehicle circuit.

Waterless hand washing powder

White powder, whiteness higher than 98% Mesh number 80-120, soft, nontoxic, odorless and environment friendly. Easily remove all kinds of oil, grease, ink, paint, glue, carbon deposition and other stubborn stains. Neutral PH, which does not hurt the hand in comparison with gasoline and laundry detergent.

High Temperature Lithium Grease

Staying power—excellent adhesive property.
Shear stability—does not soften or run out.
Operating temperatures from -30° C to 180° C
Extreme pressure & anti-wear protection—resists EP
